Environment - Page 2 - Measurement Descriptions

Schedule Indicators   (Represent performance over the last 8 quarters.)

Meeting or Exceeding Targets Every Quarter in the Last 2 Years (90%+)
Meeting or Exceeding Targets in 7 out of 8 Quarters in the Past 2 Years. (80-90%)
Meeting or Exceeding Targets 6 out of 8 Quarters in the Past 2 Years. (70-80%)
Meeting or Exceeding Targets 5 out of 8 Quarters in the Past 2 Years (60-70%)
Meeting or Exceeding Targets fewer than 5 of 8 Quarters in the Past 2 Years (<60%)

Timeframe Indicators   (Represent performance over previous 2 years)

Meeting Targets for Previous 2 Years

Meeting Targets 1 out of the Previous 2 Years

Not Meeting Targets in Either of the Previous 2 Years

EISs Ahead and Behind Schedule

Measure Description: Prior to beginning an Environmental Impact Statement (EIS), a schedule with milestones are negotiated. If the project milestones are reached on time then the project is on time or ahead of schedule (blue-green bar). Projects behind schedule are shown in gold.

Target Line: UDOT and FHWA-UT have set a goal to have 70% of all EISs proceeding on schedule. This is the quarterly target shown by a red line on the chart. It varies based on the number of EISs in progress.

Red & Pink Boxes: Another way of showing whether the targets were met for that quarter.

EAs Ahead and Behind Schedule

Measure Description: Prior to beginning an Environmental Assessment (EA), a schedule with milestones are negotiated. If the project milestones are reached on time then the project is on time or ahead of schedule (blue-green bar). Projects behind schedule are shown in gold.

Target Line: UDOT and FHWA-UT have set a goal to have 70% of all EISs proceeding on schedule. This is the quarterly target shown by a red line on the chart. It varies based on the number of EAs in progress.

Red & Pink Boxes: Another way of showing whether the targets were met for that quarter.

EIS Median Timeframes

Description: For all the EISs completed in a given year, this is the median number of months it took to complete the projects (NOI to ROD).

of EISs Complete

Description: This shows how many EISs have been completed in a given year.

EA Median Timeframes

Description: For all the EAs completed in a given year, this is the median number of months it took to complete the projects (NOI to FONSI). (Utah has chosen to issue a NOI to mark the beginning of EAs.)

of EAs Complete

Description: This shows how many EAs have been completed in a given year.

of Projects with De Minimis

Description: The total number of EISs, EAs, and CEs that have utilized the SAFETEA-LU De Minimis provision.

of CEs Complete

Description: This shows how many CEs have been completed in a given year.
